Supply and Demand

- Home sales have been exceeding new inventory for several weeks. Since this is a Buyer's market prices are not yet moving higher as excess inventory is consumed. However, as the supply and demand trends continue, the market moves into the Seller's zone, and we are likely to see upward pressure on pricing.

Market Action Index

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
